

Our Vision

God gave me a vision over twenty years ago to build an International Ministry Center that would include a wing dedicated to cancer research, another wing dedicated to Sports ministry, another wing devoted to the care of abused women and children and another wing that would house a Christian training school. The foundations of many of these ministries are now in place in our church. Our church is small, but we have a big vision. I received a clear directive from God recently that He was going to build our church with the broken. God has taken me through a breaking process over the last several years to set me free from religion and instill a Christ like compassion that minimally existed before. If you feel like the church has given up on you or if you have given up on the institutional church, you may be one of the broken bricks that God is going to use to build something amazing for His glory in our Ministry Center. God took me from believing it was my job to being His spiritual policeman to setting people free to do ministry and to give people the freedom to believe they could achieve the impossible. We are actively seeking prayer partners, covenant members and financial partners to team together with us as we carry out God's purpose for our church. To find out how you can partner with us email me at freedompastor@aol.com.
